

LED TEMPORARY HIGH BAY LIGHT

PART OF THE LED JOBSITE.
LEARN MORE AT:
LEDJOBSITE.COM

The latest addition to the Beacon Light family is the LE-HB150LED temporary LED high bay. High-efficiency LEDs provide 15,000 lumens to illuminate 3,000 square feet when mounted at a ceiling high of 20 feet. Replacing any 400W metal halide bay light with the LE-HB150LED is a safer and smarter lighting solution in any application.

A major advantage of Lind Equipment's temporary LED high bay is it comes daisy-chainable out of the box. The LE-HB150LED can run nine lights daisy chained on the same 15A circuit, compared to traditional 400W metal halide high bays, which only allow three.

The 150W bay light projects shadow free crisp bright white light generated via solid state LEDs that can endure shocks, vibrations and rough handling without breaking. The high-quality LEDs are cool running and rated for over 50,000 hours (5 years of 24/7 use), meaning you never have to change a bulb.

The LE-HB150LED will provide instant start even in the coldest locations, and the unit instantly restarts in the event of a power failure, unlike traditional bulb based high bays. The IP65 weatherproof rating will make sure this high bay light will succeed in the toughest environments.

KEY BENEFITS

- Included daisy-chain will eliminate the need for extra cables.
- Increased efficiency.
- Safer working environment.
- Lower total cost of ownership.
- Reduced downtime on job sites.

KEY FEATURES

- Only 150W to provide 15,000 lumens.
- LEDs will last over 50,000 hours.
- No bulb replacement required.
- Rated for outdoor use.
- Instant start-up, at full output, even in cold temperatures.
- Rugged heavy-duty construction.

INDUSTRIES/APPLICATIONS

- General contractors
- Construction
- Sewer, subway tunnels
- Warehousing
- Industrial expansion and construction

SPECIFICATIONS

VOLTAGE	90 - 277V AC, 60 Hz (wired with NEMA 5-15 plug)
WATTAGE	150W
LIGHT TEMPERATURE	4500K (bright white light • no blue tint)
LUMENS	15,000
LED LIGHT EXPECTANCY	High efficiency LEDs rated for over 50,000 hours
CONSTRUCTION	Cast aluminum housing, polycarbonate lens
WEIGHT	8 lbs
DIMENSIONS (light head)	Height: 8.2" • Diameter: 10.2"
WEATHERPROOF RATING	IP65
CORD TYPE	15' 16/3 SJTOW black • Daisy chain length: 1'

No bulbs. No heat. Instant start-up. Bright light everywhere, every time.
