

BEACON 360° 360° WIDE AREA LED LIGHT

The Beacon360 is an incredibly bright LED area light that casts light in 360° and upwards, illuminating entire rooms and entire work areas, **up to 50' in every direction.**

Ideal for construction, military, first responders and shutdowns, the Beacon360 is durable, rugged, easily transportable and will provide the lighting power you need instantly, every time.

Replace any 400W metal halide light with the Beacon360 for a safer and smarter lighting solution in any application. Far superior to the Wobblelight®, the BEACON 360° utilizes the latest advancements in LED technology to provide a bright, uniform light in a rugged, yet compact portable design.

KEY FEATURES

- Lightweight and easily portable.
- LEDs will last over 50,000 hours.
- No bulb replacement required.
- Rated for outdoor use.
- Instant start-up, at full output, even in cold temperatures.
- Rugged heavy-duty construction.
- Customizable light output settings.

KEY BENEFITS

- Safer working environment.
- Lower total cost of ownership.
- Reduced downtime on job sites.
- Energy saving device for a greener footprint.
- Extremely versatile light for multiple applications.

INDUSTRIES/APPLICATIONS

- Construction
- Maintenance
- General contractors
- Emergency responders
- Military
- Events

SPECIFICATIONS	
VOLTAGE	120/240 V AC • 60 Hz
WATTAGE	120W
LIGHT TEMPERATURE	4500K (bright white light • no blue tint)
LUMENS	14,000 (equivalent usable light of a 400W metal halide) 7,000 at half power
LED LIGHT EXPECTANCY	Integrated LED chip rated for over 50,000 hours
CONSTRUCTION	Cast aluminum housing, polycarbonate lenses
SWITCH	Three-way rocker switch (on/off/50%)
DIMENSIONS (light head)	Height: 14" • Diameter: 6"
WEATHERPROOF RATING	IP64

PATENTED

No bulbs. No heat. Instant start-up. Bright light everywhere, every time.

CORDLESS

BATTERY OPERATED BEACON 360° 360° CORDLESS LED AREA LIGHT

The LE360LEDC is a high-efficiency battery operated LED floodlight that provides unparalleled portability and illumination for wet locations, remote sites or otherwise inaccessible areas. High efficiency LEDs coupled with cutting-edge battery technology provide users with the versatility and control to customize light output based on their exact needs.

At full power, the LE360LEDC provides 6,000 bright lumens for 4 hours. At 50% power mode the run time is 8 hours and at 15% power mode, the light will run for 25 hours. Save significant time and money with the LE360LEDC by avoiding the need for long cables and generators.

The LE360LEDC is made from durable cast aluminum and uses polycarbonate lenses. With no moving parts, no bulbs and a robust housing, the LE360LEDC can take a substantial amount of abuse while continuing to perform every time.

Fire and rescue crews, contractors and mobile work crews can now light areas that don't have power without compromising light output or light duration.

LE360LEDC-FS
HEAVY DUTY FLOORSTAND

LE360LEDC-MAG
STRONG MAGNET MOUNT

LE360LEDC-TR
ADJUSTABLE TRIPOD

KEY BENEFITS

- Eliminate extension cords and generators.
- Increased efficiency.
- Safer working environment.
- Lower total cost of ownership.
- Reduced downtime on job sites.
- Extremely versatile light for multiple applications.

KEY FEATURES

- Lightweight and easily portable.
- Powerful battery technology provides 4-25 hours of run time.
- LEDs will last over 50,000 hours.
- No bulb replacement required.
- Rated for outdoor use.
- Instant start-up, at full output, even in cold temperatures.
- Rugged heavy-duty construction.
- Customizable light output settings.

INDUSTRIES/APPLICATIONS

- Fire and Rescue Services
- Construction
- Maintenance
- General contractors
- Military
- Aviation

The LE360LEDC can be carried, hung and mounted in a wide variety of ways. It is offered as a light head only (LE360LEDC), with an aluminum floor stand (LE360LEDC-FS), 4-8' tripod (LE360LEDC-TR), magnetic mount (LE360LEDC-MAG), or a scaffold clamp (LE360LEDC-CLAMP).

SPECIFICATIONS	
RUN TIME	4 hours at 100% power, 8 hours at 50% power, 25 hours at 15% power
CHARGE TIME	4-5 Hours
WATTAGE	45W
LIGHT TEMPERATURE	4500K (bright white light • no blue tint)
LUMENS	6,000 Lumens at 100% power
LED LIGHT EXPECTANCY	Integrated LED chip rated for over 50,000 hours
CONSTRUCTION	Cast aluminum housing, polycarbonate lenses
SWITCH	Multiple setting push button control
WEIGHT	9 lbs
DIMENSIONS (light head)	Height: 12" • Diameter: 6.5"
WEATHERPROOF RATING	IP65

No bulbs. No heat. Instant start-up. Bright light everywhere, every time.
