#### LE9000 SERIES AUTO REWIND CORD REELS

**APPROVALS:** CSA and UL Certified

Our LE9000 series of reels are built with durable all-steel weatherproof (NEMA 4 enclosure) construction so that they will survive in the toughest work environments. We've built the cable guide arm with thicker steel than our competitors to take extra abuse. All this while still keeping the form factor small so that your reel isn't always in the way.

Features of the LE9000 series that can keep you working confidently include:

- + Precision construction to allow years of use with little maintenance
- + Adjustable cable guide arm (12 positions)
- + Strong ratchet that can be disengaged for constant tension
- + Adjustable ball stop
- + 6' feeder cord
- + Standard SJOW cable in various gauges
- + Cable lengths up to 50', with up to 4 conductors
- + NEMA 4 weatherproof rating on enclosure

The LE9000 series reels come with a variety of cable types and accessories. See below for optional accessories and most popular SKUs. Further customization is available on demand.
