

CABLE REELS, CORDS & PROTECTORS

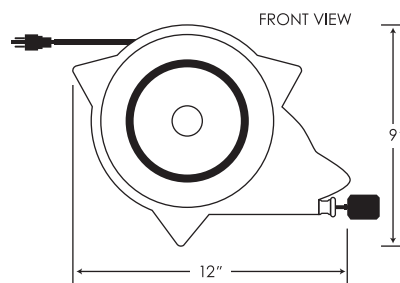

AUTO REWIND CORD REELS

INDUSTRIAL

LE6500 SERIES AUTO REWIND CORD REELS

APPROVAL: cULus Certified

Lind Equipment is proud to offer the first industrial-duty weatherproof (NEMA 4X) cord reel on the market. The LE6500 series is perfect for those places where heavy-duty construction is too expensive and unnecessary. The LE6500 series is ideal in wet locations such as hospital operating rooms or hose-down areas. It has also seen great success in industry and in shipping/parking lot operations acting as a block heater cord. The LE6500 series is an excellent choice for weather-proof requirements at a reasonable price point.

LE6530 30' of 16/3 SJEOOW cold weather cord, single female outlet

LE6510MD 10' of 14/3 SJOW cord, duplex female hospital grade outlet

WALL MOUNT BRACKETS: P/N **LE6500WM** • **CEILING MOUNT BRACKETS:** P/N **LE6500CM**

RETRACTABLE DATA REELS

LE2300 SERIES DATA REELS

Retractable data reels are purpose built for the datacomm industry. Utilizing robust springs that can be retracted over and over again without wear and conductors that can carry data without fail, these reels can be relied upon at any time.

Perfect for conference rooms, mobile technology platforms, retail displays and other areas where you need instant data connections without the mess of stray wires.

CONSTRUCTION: Features robust spring technology, encased in steel housing and ratchet for locking cord in place

LE2320CAT 20' CAT6 retractable cable with 2' CAT6 pigtail (shown)

LE2320USB 20' USB retractable cable with 2' USB pigtail

Custom configurations available up to 20 conductors and 20' of cord
