

LIND EQUIPMENT

WORK CONFIDENTLY.

THE BEACON LIGHT

INDUSTRIAL • PORTABLE • LED • FLOODLIGHT

LE970LED-MAG • MAGNET MOUNT

The **LE970LED-MAG** model combines the same durable 50W LED floodlight head from the LE970LED with an innovative magnet mounting system. The LE970LED-MAG can be mounted anywhere there is steel and positioned to cast the bright white light directly on the work area. The two extra strong magnets mounted on the heavy duty yoke allow workers to secure the lights out of the way when not in use which keeps the work environment safer by preventing a kicking or tripping hazard. Common applications include industrial construction, tank manufacturing, tank maintenance, and rail operations.

BEACON LIGHT FEATURES
