

LIND EQUIPMENT

WORK CONFIDENTLY.

THE BEACON LIGHT

INDUSTRIAL • PORTABLE • LED • FLOODLIGHT

POLYCARBONATE LENS

The Beacon Light is a super bright 50W LED floodlight designed for the toughest locations. The polycarbonate lens is virtually unbreakable and makes this light perfect for use in food and agriculture facilities or other areas where glass is prohibited. Using the newest LED technology, the Beacon Light puts out the same amount of usable light on your work site as a 500W quartz halogen, but is cool running and uses 90% less energy. A first of its kind, the Beacon Light projects a wide, shadow-free flood of crisp white light generated via a 50W LED integrated chip, which is solid state construction and can therefore endure shocks, vibrations and rough handling without breaking the LEDs. The high quality LEDs are rated for over 50,000 hours, meaning you never have to change a bulb. Tough and reliable, the Beacon Light will never let you down!

LE970LED-TR
4-8' Tripod unit

LE970LED-TD
Dual-head Tripod unit

LE970LED-PL	
BULB	50W LED array
LIGHT OUTPUT	5000 Lumens
LIGHT TEMPERATURE	4500 K (bright white light - no blue tint)
ENVIRONMENTAL RATING	IP65
WEIGHT	10 lbs (light head only)
CONSTRUCTION	Aluminum housing with powder-coat yellow paint, polycarbonate lens (no glass)
CABLE	25' 18/2 SJTOW, Black
APPROVALS	cETL Certified
