

## 50W LED PORTABLE FLOODLIGHT RUGGEDIZED

The LE970LED is a very bright industrial weatherproof LED floodlight designed for the toughest locations. The LE970LED's solid construction ensures that it will endure shocks, vibrations and rough handling without breaking the LEDs. For added protection, the LE970LED can be upgraded to the "Ruggedized" version which includes additional features to make it an even tougher and more robust light. Perfect for abusive work places or where operator handling may be extreme.

LE970LED

LE970LED-FS

LE970LED-MAG

LE970LED-TR

LE970LED-TD

ADD "-R" TO ANY OF THE ABOVE PART NUMBERS TO  
RUGGEDIZE IT.

### RUGGEDIZED FEATURES INCLUDE:

- Extra thick yoke for rough handling and transport
- 15' of 16/3 SOW cable for all weather use and extra cord insulation
- Stronger strain relief for extra protection against cord fatigue and handling the light by the cord
- Mechanical 5-15 plug that can be removed for on-site repairs to the cord
- Shatter guard film on the lens to protect workers and the work site against broken glass should the lens get broken. The lens is tempered glass, and the shatter guard film keeps the broken glass in place, making the work site safer and removing the need for time consuming clean up. Simply remove the lens intact and replace with a new shatter guard protected lens.
