

FLUORESCENT

Fluorescent hand lamps are cool running by design so you don't have to worry about having your light close by in tight spaces. Our lines of fluorescent lights are built tough for your tough jobs.

HEAVY-DUTY

The Lumenex™ series of fluorescent work lights use a tubular polycarbonate design to ensure maximum durability. The housings are completely shatter-proof for safety in the toughest environments. Durable rubber end caps absorb shock if the light is dropped and work to keep moisture and dust out of the light chamber. Lightweight, rugged design, and rough-service lamps ensure a long service life. Lumenex™ lights include a full-length reflector, totally enclosed switch, hanging hook, and yellow 18/2 SJTOW cord.

 Any of our Lumenex™ lights can be made vapour proof. Our exclusive 'vapour-proof' versions prevent water vapours from entering the light chamber. Just add -V to the part number.

LE1500 SERIES LUMENEX™ FLUORESCENT WORK LIGHT

The Lumenex™ 1500 series has a more powerful 15W bulb that gives off 920 lumens. The linear fluorescent bulb means a longer light that illuminates a larger area than the 1300/1400 series. The ballast is inline on the cord.
