

Explosion-Proof Portable LED Floodlight

XP1830LED-50P

The XP1830LED utilizes the latest in LED technology to provide a wide, shadow-free flood of crisp white light. With the ultra bright LED array, you will never again worry about changing another bulb. The XP1830LED provides an equivalent amount of usable light compared to the old metal halide version and uses 56% less energy. The housing is made from non-sparking aluminum that can stand up to rough service and is suitable for wet locations (CSA type/NEMA 4). Popular applications include: refining facilities, tank maintenance, grain storage facilities and gasoline & chemical storage. With a wide range of hazardous locations in which it can be used, the sturdy XP1830LED explosion proof floodlight is versatile and won't let you down.

SPECIFICATIONS
